

WALGRAVE NEIGHBOURHOOD WATCH

5 August 2010

This is a message from the Northamptonshire Police Community Network Team.

Northamptonshire Police are running Operation Guardian, which aims to reduce significantly burglary, robbery and vehicle crime across the county.

We have many tried and tested techniques for catching burglars, robbers and car thieves - such as ensuring that police activity is targeted in the right places, use of forensic evidence, investigative interviewing and intelligence gathering.

Intelligence gathering relies on the confidential sharing of information - often from police employees or criminals, but mostly, from the general public. People who commit crime have mothers, fathers, partners, children, neighbours or colleagues who sincerely care about them and want them to change their ways.

You might be one of them, or you might know others who could help.

If you can answer any of the following questions, or have any other information about criminals operating in Northamptonshire - would you please let us know?

- * Who is committing crime within your community?
- * Who is buying or selling stolen goods?
- * Who is selling drugs?
- * Have you any suspicions about people using garages or lockups in your area?

Please forward this message to your friends, family and neighbours who are the invaluable eyes and ears of the community.

Together, we can take action to stop the criminality that ruins lives.

We thank you for your continued support.
