

Western Power Distribution are requiring to install a new underground main and service cabling on a section of Old Road in Walgrave. To carry out the works safely for both the public and the workforce will require that the road is closed from the 24th July until the 18th August.

A plan showing the location of the closure and diversion route can be viewed here <https://roadworks.org?tm=166652> Although it currently shows the works to be starting on the 3rd August this is shortly being amended to give the 24th July.

If you require more information about the works please contact Eddie Cochrane of Western Power on 07740 096560.
