

Walgrave Village Hall & Playing Field Association has applied for funding through the Marks & Spencer Energy Fund to upgrade the lighting in

the village hall. Our application has been successful and the next stage is to prove to them our project is worth funding and is supported.

Our project has now gone 'live'. Please support us by registering your vote via this [link](#). We need as many votes as we can to pass this stage and onto the next, so please help us by also forwarding this on via friends, email, Facebook, etc. Thank you.
